

Page 1: Login

- Option to remember the login credentials
- Only email addresses that are approved should be able to login
- Option to retrieve login credentials (see page 2)

Page 2: Forgot password

- Option to retrieve password by filling in an email address. An email should then be sent with a reset.
- Option to go back to the login screen (see page 1)

Page 3: Navigation

- A design of how the navigation sidebar looks when it's open.
- The red button "Admin options" only gets shown when an admin has logged into the application
- Option to search through the application on name, type developer and company name
- Option to filter on type of staff
- Possible to collapse the sidebar (see page 4)
- Option to logout

Page 4: Navigation

- A design of how the navigation sidebar looks when it's collapsed.
- Possible to open the sidebar (see page 3)

Page 5: Home

- When logged in, this is the first view the user will see
- Contains an introduction of Competa and Competa Millman incl. a photo of each
- An automatic counter that tracks how many employees, trainees and interns each company has
- Button to each company to view all their staff members in one view.

Page 6: Home – admin

- Same view as page 5, but with the possibility to change the content of the home page (see page 7)

Page 7: Edit home content

- As an admin you can change the content per company

Page 8: Overview staff

- This is the design for the overview pages on the left in the sidebar you can see an example of "Front-end" and "Trainees" selected as filters.

Page 9: Overview staff

- Same view as page 8, but than with an admin button

Page 10: Hover effect

- Here you can see the hover effect

Page 11: Admin overview

- Option to edit an employee or delete him/her

Page 12: Employee details

- When you click on the overview on an employee it will open this pop-up with all the details

Page 13: Employee details – admin

- Same as page 12 but with admin options to edit or delete

Page 14: Notification delete

- When you want to delete an employee as admin, this notification will pop up first

Page 15: Notification edit/add

- When as an admin you click on the pencil in page 11, you will get this notification to select the option you want

Page 16: Edit/add employee

- A form to fill in all the details for an employee
- In case it's an intern or trainee the option should be selected at the bottom
- Depending on the parent, it will automatically generate the company logo. When "intern" or "trainee" is selected it should automatically generate the CodePamoja logo (see page 12)

Page 17: Discard changes

- In case you want to discard changes, you get this notification screen

Page 18: Questions

- Possible for the admin to change the questions. These are general questions, if changed here; they will be changed for all employees, interns and trainees.
